legacyseeds.com

- Excellent IDC and salt-excluder gene make this a widely plantable soybean
- Very good lateral branching and adaptability to row width
- Medium height variety with good standability
- Above average white mold
- Medium height variety with very good standability
- #3 All-time yield leader in NDSU soybean trials at 90 Bu/A
- Maturity: 0.9

DISEASE RATINGS

White Mold	G
PRR FT	VG
PRR GENE	Rps3a
Iron Chlorosis (IDC)	EX
Brown Stem Rot	EX
SCN	VG
SDS	NA

MY NOTES

AGRONOMIC CHARACTERISTICS

Standability	VG
Emergence	EX
Stress Tolerance	VG
Plant Type	MB
Plant Height	M

**Rating Key:** EX = Excellent | VG = Very Good | G = Good | S = Susceptible | R = Resistant | NA = Not Available | FT = Field Tolerance  
**Diseases:** PRR = Phytophthora Root Rot | IDC = Iron Chlorosis | BSR = Brown Stem Rot | SCN = Soybean Cyst Nematode | SDS = Sudden Death Syndrome
